PROFILE SUMMARY

Honours Information Systems and Technology student at UKZN with a strong foundation in systems analysis, database management, and business process improvement. I am passionate about bridging the gap between business needs and technology solutions, approaching every problem creatively and with a drive to design solutions that create measurable impact. Through progressive leadership roles within the UKZN Technology Society and hands-on project experience, I have developed skills in stakeholder engagement, data-driven decision-making, and strategic thinking. I am a self-directed learner who actively seeks opportunities to grow beyond the classroom, and I am eager to contribute to an organisation where analytical thinking, technical knowledge, and business insight converge to drive meaningful change.

EDUCATION

BCom Information Systems and Technology – University of KwaZulu-Natal (2025)

EXPERIENCE

Deputy President – UKZN Tech Society (2026)

- Oversee and manage external departments
- Coordinate and supervise society events
- Engage with and maintain relationships with stakeholders
- Document key decisions and organisational changes
- Support the President in executive duties and strategic planning

Marketing Director – UKZN Tech Society (2025)

- Manage the Marketing Department
- Plan and create content for the society's social media platforms
- Analyse performance metrics and develop monthly strategies to improve content and engagement

Finance Director – UKZN Tech Society (2024)

- Managed and oversaw the society's budget
- Monitored income and expenses to ensure financial sustainability
- Prepared financial reports for executive meetings
- Ensured accurate record-keeping and transparent financial processes

TECHNICAL COMPETENCIES

- Programming Languages: Basic SQL, C#, HTML
- Modelling & Methodologies: UML, ERD, SDLC, Agile, Waterfall
- Tools & Software: MySQL, Visual Studio, Draw.io, MS Excel, WordPress, Android Studio, Power BI

ACHIEVEMENTS & INVOLVEMENT

- Participated in GirlsCode Hackathon
- Member of CHASU (Community and Health Advocacy Student Unit)
- Completed seven Midmar Mile open water swims and one Capital K swim
- Prefect, House Captain, Peer Promoter, and First Aid Committee – Pietermaritzburg Girls High School
- Selected for KZN Action Netball Midlands Team
- Volunteered at SPCA and Old Age Home

Sales Casual – Edgars, Pietermaritzburg – December (2021, 2022, 2023, 2024, 2025)

- Worked effectively in a fast-paced retail environment balancing teamwork and independent tasks.
- Collaborated with team members to maintain organized store operations. Assisted customers by resolving queries and ensuring positive service experiences

PROJECT EXPERIENCE

Point of Sale (POS) System Development Project

I collaborated with a team to design and develop a POS system tailored to PostNet Pinetown's retail and service operations.

Tasks I handled

- Conducted requirements gathering and analysis to identify customer, transaction, and inventory management needs.
- Designed Entity Relationship Diagrams (ERDs), use cases, and data models to support system functionality and business processes.
- Contributed to Power BI reports to provide insights into sales performance and operational data.
